

# Alex Padilla

## Web Developer

Passionate about technology, a few years ago I entered the world of web development. Combining the fundamentals acquired at the university and the self-taught study, I have learned both frontend and backend in freecode camp and platzi courses. In the frontend I use react and nextjs framework, and in the backend I use NodeJs or Java Spring Boot.

## EDUCATION

### Software Engineering

Escuela Politécnica Nacional

09/2019 - Present
